

status	category	glyph	short name	name	unicode	notes
change	musical symbols	o to 	o_stroke	Latin Small Letter O with Stroke	U+00F8	Redesigned glyph to be distinct from uppercase Ø. This glyph is used by musicutil.lib so I suggest revisiting which of the styles (small, full, superior) we want to use there. Scripts can switch to dedicated uppercase glyph U+00D8 if preferred.
change	music symbols	 to 	flat	Music Flat Sign	U+266D	Redesigned glyph to sit on baseline rather than extending 1 pixel below. This appears more consistent with text-based music fonts as opposed to scoring-based fonts. In addition to existing chord names now being uniform in height, script authors may use the extra 1-pixel headroom for superscript glyphs which can be more horizontally compact. I do not see this negatively affecting existing scripts, but the existing glyph is still available at U+E260.
change	mathematical	~ to 	tilde	Tilde	U+007E	Shifted tilde placement down to be more consistent with standard usage and other mathematical operators (~+==x). Scripts can switch to dedicated accent glyph U+0303 if preferred.
