new	media controls	■	stop	Stop	U+23F9	Miscellaneous Technical	U+2300 - U+23FF	full size	
new	media controls	▶	play	Play	U+23F5	Miscellaneous Technical	U+2300 - U+23FF	full size	1-pixel leading space to have similar weight when performing play/pause/stop animations. I *think* this is the right call, but it may not be ideal in all situations. See also: directional triangles which have a similar issue but are left-aligned (which I think makes more sense there as they are less likely to be used in animations). TBD?

change	musical symbols	Ø to ø	o_stroke	Latin Small Letter O with Stroke	U+00F8	Latin-1 Supplement	U+0080 - U+00FF	small	Redesigned glyph to be distinct from uppercase Ø. This glyph is used by musicutil.lib so I suggest revisiting which of the styles (small, full, superior) we want to use.
change	music symbols	♭ to ♭	flat	Music Flat Sign	U+266D	Miscellaneous Symbols	U+2600 - U+26FF	full size	Redesigned glyph to sit on baseline rather than extending 1 pixel below. This appears more consistent with text-based music fonts as opposed to scoring-based fonts. In addition to existing chord names now being uniform in height, script authors may use the extra 1-pixel headroom for superscript glyphs which can be more compact, horizontally. I do not see this affecting existing scripts negatively. https://www.w3.org/2021/03/smufl14/specification/scoring-vs-text-applications.html
change	mathematical	~ to ~	tilde	Tilde	U+007E	Basic Latin	U+0000 - U+007F	full size	Shifted tilde placement down to be more consistent with standard usage and other mathmatical operators (~+-=×). Could affect existing scripts.
